HORSE RACING

- The Lansdowne track was a good one but they didn't get the crowds because of the difficulty in transportation.
- Aviemore won the Futurity and the Nursery but she didn't race well at the Park so she raced in Alberta and in California.
- Last year (1975), they had eight horses running and they did very well.
- This year he has two horses racing.
- They just lost a horse in a Claiming Race on Saturday for \$15,000.00 for one of the highest prices ever paid and they are a little annoyed.
- You have to put horses in Claiming Race to rate them and anyone running horses at the track can claim them.
- He now has only Patti-Ruth left.
- Prince Aylmer sustained a fracture in an accident...he raced ten times as a two year old and won one third, six wins and place second twice.

- Mr. Hawk had the habit of running away behind other horses, 10 - 20 lengths and then runs ahead to win.
- They prefer the longer tracks to the one at Exhibition track because there is no big stretch, it is all turn and difficult for some of the horses.
- Casualties are a common occurrence during the racing season.
- Allan May, their trainer, has been four times the "Trainer of the Year".
- Aviemore races better at Longacres which is loamy and light and easy on the horses whereas at Exhibition Park the track is sandy and when Aviemore runs, she bends at the ankles and get cut by the sand; she

 - They did well last year...they had 14 wins, no stakes winners, they won allowance races with Patti-Ruth.
 - They won \$73,000.00 this includes the 1% paid by the government for B. C. bred horses, after expenses, they are left with one-third of the take.
